FUND INFORMATION TO BE CONSIDERED BEFORE INVESTING

Collective Investment Schemes should be considered a medium to long term investments. The value of units (participatory interests) may go down as well as up and past performance is not necessarily a guide to the future performance. The Fund is traded at ruling prices using forward pricing and can engage in borrowing up to 10% of the market value of the portfolio to bridge insufficient liquidity as a result of the redemption of participatory interests and may engage in scrip lending. The yield on the Fund is calculated monthly based on the actual distributions declared in the last 12 months divided by the average daily net asset value, expressed as a nominal annual rate. It is provided to give an approximate indication of the achievable yield for an investment made at the reporting date. A schedule of fees and charges and maximum commissions is available on request from STANLIB Collective Investments (RF) Pty Ltd (the Manco). Commission and incentives may be paid and if so, would be included in the overall costs. Liberty is a full member of the Association for Savings and Investments of South Africa (ASISA). The Manco is a member of the Liberty Group of Companies.
