## FUND INFORMATION TO BE CONSIDERED BEFORE INVESTING

The STANLIB Multi-Manager Global Equity Feeder Fund should be considered a medium to long term investment. The Fund invests in a single portfolio of a collective investment scheme, which levies its own charges and which could result in a higher fee structure for the Fund. The value of units (participatory interests) may go down as well as up and past performance is not necessarily a guide to future performance. The Fund only invests in foreign securities, and fluctuations or movements in exchange rates may therefore cause the value of underlying investments to go up or down. The Fund is also exposed to macroeconomic, political, tax, settlement and illiquidity risks that may be different to similar investments in the South African market. The Fund is traded at ruling prices using forward pricing, and can engage in borrowing of up to 10% of the market value of the portfolio to bridge insufficient liquidity as a result of the redemption of units, and may engage in scrip lending. A schedule of fees, charges and maximum commissions is available upon request from STANLIB Collective Investments (RF) Pty Limited (the Manco). Commission and incentives may be paid and if so, would be included in the overall costs of the Fund. Liberty is a full member of the Association for Savings and Investments South Africa (ASISA). The Manco is a member of the Liberty Group of Companies.
